nikpolTM

santorini: luxury sink range

santorini

durable, distinct design
— a european statement
for your australian home

FEATURES

Antibacterial Action

Removes bad smells and pollutant substances often found in the kitchen.

Self Cleaning Action

An active agent in the sink resists limescale, making it easier to clean for the life of the sink.

Stain Resistant

Dirt and stains are easily removed by rinsing and gently wiping the sink with detergent.

Food Safe

The hygienic surface makes it completely suitable for food preparation.

Heat & Sound Insulation

Maintain the water temperature longer, and absorb noise.

Impact Resistant

High superficial strength protects the sink from breakage due to impact from saucepans etc.

Heat Resistant

Oliveri's granite sinks withstand thermal shocks and are heat resistant up to 280°C*.

Scratch Resistant

Very resistant to everyday "wear and tear".

Colour Safe

Colour will remain unchanged and will not discolour over time.

*Some pots can reach up to 600°C when first removed from the oven or stove top. Nikpol recommends the use of a surface protector for hot pots or pans.

RECOMMENDED TAPWARE

*Tapware sold separately

DESIGN AND STYLE TIPS

Equally at home in the kitchen or laundry, the Santorini range not only looks great, but also contains nanoparticles that perform a triple action; anti-polluting, antibacterial and self cleaning.
