90cm Induction Cooktop with Integrated Extractor Fan

Cooktop Datasheet

Features & Benefits

Easy Cleaning
Frameless, flush installation to reduce cleaning surface. Glass top means a regular kitchen surface cleaner should be enough.

Efficiency
Pot detection switching for less panel operation. Cooking zone booster for quick heating. Zone linking possible for a larger cooking zone.

Cooking Assist
Timer and countdown function available.

Stylish Design
Sleek glass look in black colour that suits any modern style.

Space Saving
Flush installation integrates the surface for a wider workstation space. Slim and flat design requires less space for installation.

Safety Feature
Child lock and residual heat indicators to avoid accidents. A safety switch off is available in case of emergency.

Multiple Cooking Zones
4 zones that can be simultaneously used. Zone linking is possible between 2 adjacent zones.

Display and Controls
Touch control panel and 7-segment digital LED display located in front. Electronic control in 10 power levels.

Energy Source
Electricity

Specification

Dimensions
Appliance:
H827-982 × W900 × D530mm
Installation:
H58 × W862 × D495mm

Material
Surface: Glass ceramic

Weight
Net: 30.8kg

Type
Built-in, frameless combi-induction

Finish
Black

Cooking Zone Power (+Booster)
4 zones Ø 22cm - 2.1 kW (3.7kW)

Control
Touch control panel located in front
Pot detection

Display
LED display with 7 segments
Residual heat indicator

Connection

- Voltage: 220-240 V
- Total connected load: 8 kW
- Frequency: 50/60 Hz
- Device color: Black
- Energy Source: Electric
- Approval certificates: CE, RCM
- Packaged unit dimensions:
- Niche dimensions:
- Device width: 900mm
- Dimensions of the device: 827-982 x 900 x 530 mm
- Length of connection cable: 150cm
- Plug type: without plug

90cm Induction Cooktop with Integrated Extractor Fan
Extractor Fan Datasheet

Features & Benefits

Easy Cleaning
Glass surface means a regular kitchen surface cleaner should be enough. Removable water collection tank and dishwasher friendly grease trap for easy cleaning.

Efficiency
Control panel is in front of the unit, no need to reach into the extractor fan to operate.

Automation
Automatic overrun for circulation mode and 3-level overrun for 5/10/20 minutes. Blocks collection tank after 40 hours of operation.

Stylish Design
Sleek glass look in black colour that suits any modern style. Downward suction frees up space above the cooktop for a minimalistic design.

Space Saving
Compact design makes it suitable for installation in a kitchenette or kitchen island.

Quiet but Powerful
Wide opening allows for huge amount of extraction without being too loud.

Modes
Extraction
Circulation (carbon filter required)

Display and Controls
Touch control panel and 7-segment digital LED display located in front. Electronic control in 5 power levels plus 1 intensive level.

Energy Source
Electricity

Specification

Dimensions
Appliance:
^{H}827-982 × ^{W}900 × ^{D}530mm
Installation:
^{H}58 × ^{W}8.2 × ^{D}495mm

Material
Surface: Glass ceramic

Weight
Net: 30.8kg

Finish
Black

Noise
Minimum: 45dB(A)
Maximum: 65dB(A)
Intensity: 70dB(A)

Fan Output
Extraction: 580m³/h
Circulation: 450m³/h

Intensity Level
Extraction: 730m³/h
Circulation: 560m³/h

Grease Filter
Metal grease filter
Efficiency: Class B

Collection Tank
Capacity: 0.75L

Display
LED display

Extraction
Downward

Connection

- Voltage: 220-240 V
- Total connected load: 0.165kW
- Frequency: 50/60 Hz
- Device color: Black
- Energy Source: Electric
- Approval certificates: CE, RCM
- Packaged unit dimensions:
- Niche dimensions:
- Device width: 900mm
- Dimensions of the device: 55 x 590 x 520 mm
- Length of connection cable: 150cm
- Plug type: without plug
