nikpol™

Inspired by a strong history

For more than 40 years, Nikpol has supported home-owners, renovators and commercial developers to create and inspire spaces. With a strong commitment to innovation, Nikpol offers globally-renowned European decorative and hardware brands to the Australian market. Earning a reputation as an industry leader.

look inside...

Our range

Nikpol offers a wide range of surface textures that mimic realistic woodgrains and material reproductions. Available in a wide range of surfaces, the Nikpol decorative collection is a clear choice for your next project.

Textured Reproduction

ST22

A deep brushed finish with a matt gloss linear grain. A realistic surface for linear wood grain décors.

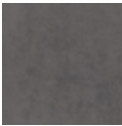

ST10

A surface for authentic, striking and realistic décors.

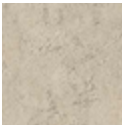

REN 3D

Thermoplastic films for 3D door applications. SU - Suedette Matt SC - Soft Coat HG - High Gloss

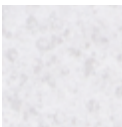

ST16

This surface has a plaster or spatula look, containing both deep and raw as well as smooth and glossy elements

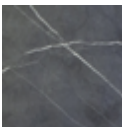

ST82

This strong textured surface provides a natural finish to striking stone décors.

MT

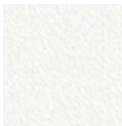

Timeless beauty of natural quartz, combined with the natural stone texture and natural stone effect.

MN

A rigid surface that resembles the flowing of molten lava. A non-uniform three-dimensional effect enhances the tactile experience

Matt

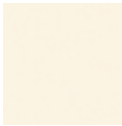

PE

A grainy, mini-pearl texture, with a medium gloss level. This surface is robust and durable.

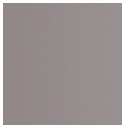

ST9

A Matt finish with a very low gloss level, offering a very soft and natural feel.

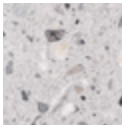

ST15

A smooth, flat surface finish with low gloss levels and low maintenance

PM

The warm and silky feel is combined with high resistance and Anti-Fingerprint properties to provide a high quality, matt finish.

SOFT TOUCH

Nanotech soft matt finish that is resistant to fingerprint marks and is soft to touch.

MW

This MattWood surface gives a silky matt finish exposing the subtle gloss of the wood grains pore

Synchronised Wood Grain

ST28

A natural looking synchronised grain which emphasises the characteristics of sand blasted natural wood.

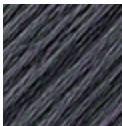

ST29

A synchronised pore partnered with the large wood grain knots gives an aged and distressed look to the surface.

ST36

A deep brushed wood texture coupled with a matt finish gives the surface an authentic feel.

ST38

A deeply brushed softwood appearance with a high value pearl effect thanks to the matt and gloss elements.

ST37

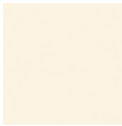

This texture has an authentic solid wood finish, which is emphasised with its synchronised surface.

Gloss

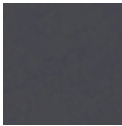

HG MAR

High Gloss Micro Abrasive Resistant. This surface is resistant to everyday scratches.

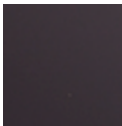

ST30

A smooth surface with high gloss level, especially suited for white and neutral décors.

ACRYLIC

High Gloss lacquered acrylic boards. This surface offers an unmistakable depth and gloss effect like no other material.

PG

PerfectSense Gloss is characterised by its exceptionally smooth and deep reflective finish

*Nikpol's EGGER Melamine
and Worktop products
are low in allergen
compounds.*

High levels of pollutants from VOCs (Volatile Organic Compounds) such as formaldehyde are found in wooden building materials and can often cause respiratory issues for people - particularly asthmatics and the elderly.

EGGER melamine board and worktops have lower formaldehyde levels than E0, F**** (0.3mg/l) making it the lowest level of formaldehyde to be used in manufacturing of wood based products in Australia.

Insist on specifying EGGER for your next project. It will minimise the levels of VOC emissions in your home or work environment.

Nikpol Pty. Ltd.
